President Roosevelt Spent Monday Traveling Through Picturesque Colorado.

NEW PET FOR WHITE-HOUSE CHILDREN

Mr. Roosevelt Taking Back a Little Terrier Bear Dog to Washington—The Party Reached Denver at 5:30 Where the Programme as Scheduled was Carried Out.

Salida, Col., May 9.—The presidential special left Glenwood Springs at 5 a. m. Monday over the Denver & Rio Grande railroad and is scheduled to arrive in Denver at 5:30 p. m. The early start gave to the party an opportunity to view from the rear end of the train the best scenery in Colorado, which is said to be the canon of the Grande river.

Citizens of Glenwood Springs were particularly considerate of the president's feelings. He went to bed on the train at 11 p. m., and wanted to get a good rest. A crowd was assembled at the station when the train was made up for the start. When it was announced that the president was asleep the early risers prepared to give the party a rousing send-off refrained from cheering and without demonstration of any kind, permitted the president to depart in quiet.

The trip from Glenwood Springs to Denver is one that the members of the party looked forward to with great expectation. While the running schedule of the train is fast, officials in charge arranged for slow time while passing all points of interest.

These arrangements included a ten minute stop at Hanging Bridge, one of the greatest engineering feats of the railroad. The bridge spans a narrow gulch above which rises the walls of the Royal Gorge 2,700 feet to the top. At Minutun the train took on a helper engine. From that point the climb ranges from 3 1/2 to 4 feet to the hundred for 21 miles. One engine cannot pull even such a light train as the special which is made up of the "Rocket," the "Denver," the private car of C. H. Schlacks, vice president of the Rio Grande and a Union Pacific buffet car. The highest point is the Continental divide from where the best view of Mount Massive and the Collegian peaks is had. From the divide there is a descent for 150 miles.

Breakfast was served in the president's car when the train passed Divide. The curtains were raised and Mr. Roosevelt took a keen interest in the scenery. "Skip," the little terrier bear dog, the president is taking back to Washington, bounded into the car to greet his new master as soon as Mr. Roosevelt got up. The dog slept in the president's cabin while he was in the mountains. The active little animal appeared lonesome on the train until Mr. Roosevelt took him up. After that the terrier made friends with every one on the train and promises to become the most popular passenger on the train.

The personnel of the party on the presidential special is: Mr. Roosevelt, Secretary Loeb, Dr. Alexander Lambert, P. B. Stewart of Colorado Springs; A. C. Ridgway, general manager; Maj. S. K. Hooper, general passenger agent, and I. H. Luke, division superintendent of the Pullman company. M. C. Latta and J. L. McGraw, stenographers to the president; Jackson S. Elliott, representative of the Associated press; J. Graves Thompson of the Publishers and Scripps-McRae Press associations; John E. Monk of the New York Sun; Frank H. Tracy and James Sloan, Jr., of the secret service; John Hans and William Dulaney, messengers to the president.

Pupils of the state reform school lined up beside the railroad track at Buena Vista, the train was slowed and the president waved an answering salute to the boys. A brief address was made by the president at Salida to several hundred persons. A five minute stop was made.

THE CHICAGO STRIKE.

Rioting Has Almost Ceased in Windy City—More Wagons Sent Out Than Ever.

Chicago, May 9.—Monday was the quietest since the strike began. There has been practically no rioting and the police were called on but once to rescue non-union men. The Employers started to make deliveries on the apparent theory that the strike is broken. More than 1,000 wagons were said to be on the streets. Some of the state street stores sent out the normal number for the first time. Deputy sheriffs and private guards, many armed with rifles, aided the police to preserve order. Patrolmen, under orders of the chief of police, will not accompany wagons hereafter on foot, but be seated beside the driver. The strikers received their first benefit payment Monday, drivers getting \$10 and helpers \$6. Hereafter they are to get \$7 and \$3 respectively.

Field Marshal Oyama Has Already Pressed Back the Russian Outposts 18 Miles.

MOVEMENT MAY BE ONLY A FEINT

Plan of Gen. Linevitch is to Retire and Draw in His Forces Until the Japanese Strategy is Developed—May be Weeks Before a General Engagement is Fought—Lines Cover Front of 100 Miles.

St. Petersburg, May 9.—Interest is once more directed to Manchuria, the news from the front indicating that Field Marshal Oyama is pressing Gen. Linevitch's advance posts east and west of the railroad with considerable force as if about to undertake a general offensive movement. The Russians are offering slight resistance and are falling back on their first line of defense.

The Russian advance post covers a front of about 100 miles, extending from Singmanistun on the Liao river, in a southeasterly direction across the railroad above Changtu to the mandarin road, leading to Kirin, to Kamal pass, about 70 miles due east of Tie pass. The Russian cavalry protect both wings, small bodies being probably beyond the Liao river in Mongolia to guard against a surprise movement in that direction. Experts, however, believe that Oyama's purpose is to thrust in from the east, turn Kirin and intercept himself between Harbin and Vladivostok preparatory to the investment of the latter place. Linevitch's dispositions seem especially taken to meet such a plan. He would not give battle along his present line but would gradually retire and draw in his forces as Oyama's strategy develops. To the main Russian positions which extend due east and west from Kirin, through Kuanchangtsu to Hualtshien. A considerable force of troops also is reported to be due east of Kirin as far south as the Tumen river to contest the Japanese advance northeastward toward Vladivostok. It is not regarded as certain that the Japanese advance will really be serious. Oyama is known to have received large reinforcements which have filled up the Japanese ranks and he brought up immense quantities of supplies and ammunition after the battle of Mukden both by way of Siamintun and over the reconstructed Manchurian railroad. But at the war office here there is a difference of opinion as to whether Oyama is yet ready and it is added that if he is in earnest probably almost a fortnight will elapse before the issue is decided, the preliminaries of each of the battles of the present war, in view of the fact that the armies cover such a large area, having always been long and tedious. Up to Sunday the Russian advance posts generally had retired about 18 miles. If Oyama's offensive is pressed home a climax should be reached at about the time the sea fight between Admirals Rojestvensky and Togo is anticipated. Gen. Linevitch's headquarters are at Gunsu pass.

Russian Hospital Report.
Gunsu Pass, Manchuria, May 9.—In view of the exaggerated reports of sickness in the Russian army published abroad the Associated press is authorized to give the official figures furnished from headquarters of the number of sick in the entire region from Baikal east to Vladivostok: In hospitals, wounded, 769 officers and 14,904 soldiers; sick, 45 officers and 772 soldiers. In hospitals for convalescents, wounded, 216; sick, 332. Last week 65 sick patients died and 42 were discharged. Convalescents, wounded, 437; sick, 500.

An English Coxey's Army.
London, May 9.—A hundred picked men from the striking army boot workers at Northampton, accompanied by a band of music, started on foot Monday for London to lay their grievances before the war office. It is anticipated that their ranks will be swelled by unemployed persons at each stopping place and by the time the metropolis is reached it is expected that the strikers' forces will be of formidable proportions.

Eight Freight Cars Burned.
Richmond, Mo., May 9.—A freight wreck on the Wabash railroad at Lexington Junction Sunday morning set a car of matches on fire and eight cars were burned before the blaze was extinguished. The fire also destroyed the bridge that spans Willow Creek, the wreck occurring on the bridge.

Discover Bombs in Lodz.
Lodz, May 9.—The police have discovered two bombs in the house of a workman on Leszno street. The workman, his wife and child and four men armed with revolvers were found on the premises and were arrested. The bombs were unusually large and fully charged with explosives of great force.

Sharp Criticism of French Neutrality by British Press Stirs Up Officials of the Republic.

SITUATION IS GROWING MORE TENSE

Japanese Minister at Paris Holds Extended Interview with Foreign Minister Delcasse—Japanese are on the Alert—Their Scout Ships Watching All Movements of the Russians.

Paris, May 9.—The critical tone of the British press concerning France's alleged breaches of neutrality in Indo-China brought out an emphatic general statement Monday from the foreign office that the accusations are unfounded. An official said: "It is universally known that the Japanese intelligence department is exceptionally efficient. Therefore if various specific breaches of neutrality really existed the Japanese government would have been aware of them and would have presented specific charges to the French government. So far, however, Japan's official action has been confined to requesting France to exercise strict neutrality. She has not made any specific charges nor have any specific acts of violations of neutrality yet been brought to our attention. The Japanese government asked in an amicable spirit that we observe neutrality and we answered that we had done and are doing everything possible to that end. The reports to the contrary we believe to be misrepresentations."

Dr. Motono, the Japanese minister to France, went to the foreign office Sunday evening where he had an extended interview with Foreign Minister Delcasse. The nature of their conversation was not disclosed but it is understood that Dr. Motono referred to Japan's increasing impatience regarding the alleged breaches of neutrality. The feeling prevails here that the situation is gradually assuming much tension. Reports are current that the positive instructions of the French officials here receive perfunctory execution on the part of their subordinates in Indo-China owing to the individual sympathy existing between the civil and naval French and Russian authorities.

A semi-official note issued Monday afternoon says: "Contrary to the allegations contained in a dispatch from Hong Kong to a foreign agency not only has the French government not disregarded the rules of neutrality but after sending its civil and military agents very precise instructions for the enforcement of those rules, the government has unflinchingly seen to their extension."

Russian Ships in French Waters.

Saigon, French Cochinchina, May 9.—The Russian hospital ship Kos-trova has arrived here which indicates the approach of the fourth division of the Russian Pacific squadron commander by Vice Admiral Nebogatoff, off Cape St. James near here. The main Russian squadron is said to be off the coast of Annam.

Japanese on the Alert.

Amoy, China, May 9.—Vessels arriving here report having sighted

Japanese warships between this port and Hong Kong. Japanese ships appear off Amoy at night and undoubtedly are in communication through this place with the island of Formosa. A Japanese line of scouts is reported here to be around the south of Formosa and another line of scouts is said to reach into the Pacific from opposite Tamsui in the northern part of Formosa. A censorship is maintained over cable messages from Formosa.

Playing Hide and Seek.

Saigon, Cochinchina, May 8.—Admiral Rojestvensky's squadron has been located by Admiral de Jonghieres' intelligence department in the neighborhood of a bay southward of Honko bay, coast of Annam. Rojestvensky was warned and said he would leave immediately.

VICTORY FOR CHICAGO.

Scored a Point in the Fight for Municipal Ownership of Street Railways.

Chicago, May 9.—The city scored a victory in Traction litigation Monday, bringing municipal operation a step nearer. Judge Grosscup of the federal district court denied a motion on behalf of the Union Traction company to enjoin the city from interfering with use of the so-called Adams street line of the old Chicago passenger railway company. Judge Grosscup said that he had withheld the decision for a considerable time, believing it would hinder rather than help negotiations for an agreement between the city and the traction interests, but that as soon as he was officially informed negotiation had been balked, he framed his decision. The court holds that the franchise of the Chicago passenger railway company expired in April 1904. With the way cleared by the decision, it is the intention of the city administration to use the Adams street line as a beginning for a municipal ownership street railway system.

Decided Against Christie.

Washington, May 9.—The supreme court of the United States Monday decided the case of the Board of Trade of Chicago against the C. C. Christie Commission company of Kansas City and the Kinsey company of Chicago, involving the question as to the right of the private concerns to use the continuous quotations of the board in favor of the board of trade.

St. Paul, May 9.—Edward Gottchalk, has pleaded guilty to the charge of murder in the first degree, he having been charged with the killing of Christian Schindeleker. He has practically confessed to both the murder of Schindeleker and his partner, Joseph Hartmann.

Russian Printers Win a Victory.

ADA WILL ASSIST OWL.

Mayor Duncan Issues Call to Citizens to Help Cyclone Sufferers.

As is generally known our neighboring town of Owl has suffered a great calamity by an awful cyclone which swept over it last Friday. Many people not only lost their homes, but the contents, including beds, bedding, clothes, food on hand and everything they had, leaving them absolutely destitute. In addition many of them and their children were seriously injured, requiring medicines and medical attention which they are not able to provide. It is therefore not only a duty but should be a pleasure for all good people to come generously to their assistance in such time of deep distress and dire calamity. Therefore, as the mayor of this city, I call on everyone who may feel disposed to contribute of their means such money or property as they may feel disposed to give that they may in a measure relieve the distress of these unfortunate people, and I hereby appoint Otis B. Weaver to receive all contributions of what so ever kind, of which he will make due mention in the Evening News, and forward all such to proper committees at Owl. Let us hasten in with our gifts as our help has already been too long deferred. W. C. Duncan, Mayor.

Directors of the Equitable Assurance Society Meet in New York—Executive Officers Not Invited.

New York, May 9.—The following statement was made Monday by the director of the Equitable Life Assurance society who was one of those instrumental in calling the conference of directors for Monday afternoon.

"The call for Monday's meeting of the Equitable society's directors was issued by some of the conservative members of the board who recently arrived at the conclusion that something must be done at once to repair the society's falling fortunes. The conference will be in the fullest sense informal and every director present will be asked to express his views and if possible offer a plan to solve the existing difficulties."

"It will be a frank, heart-to-heart talk and for that and other reasons it was deemed advisable not to invite the executive officers."

"It is not the purpose of the conference to demand the resignations of President Alexander and Vice Presidents Hyde and Tarbell, though the advisability of such a course doubtless will be discussed. It is expected that some of the conferees will suggest one or more names to succeed President Alexander, but the reports that any particular individual has been selected for the position are untrue."
